[Landscape Times Reporter Ji-Ho Ji] Hyundai E & C will provide residents with special landscaping with the concept of 'Modern Art Museum' of 'H's Honor Hills (hereinafter Honor Hills), which is scheduled to move in later this month to residents of the 27th (Sat) and 28th (Sun) It was released for two days.

'Hyundai Museum of Art', which stands for the best work that combines modern design and craftsmanship of Hyundai E & C, is the first in the field of 'Another Hills' to be completed with the differentiated landscape concept of the NH residential complex.

'Modern Art Museum' is a 'name creation made by trees' that can create a dramatic landscape in response to changes in the season, 'name creation made by facilities' that adds value over time, and 'space created with sophisticated modern sensibility and artistry' It was implemented through 名作 :

A village community space with a theme of healing, play, and cafe, along with Samsung Roadside, has been installed. The central plaza is equipped with a hydroponic facility in harmony with the work of Compose Motions, designed by British space artist Sinta Tantra. DH also installed restrooms such as tables and chairs, as well as European facilities from famous designers. Italy's leading designer Alessandro Mendini's Signature, Proust, and Ron Arad, one of the world's top three industrial designers, are featured in Folly.

The penguin and otter playgrounds, featuring an intuitive modeling design, combine the efforts of Park Myung-kwon. Meanwhile, British artist Sinta Tantra is keenly interested in the project, so that during the pre-inspection period, the artists can directly explain their works.

Based on this differentiation plan, Hyundai E & C realized the work by drawing full support from the union through continuous consultation with the reconstruction union.

Park Joon-ho, head of the Hyundai E & C's Architecture and Housing Landscaping Team, said, "We have been trying for many years to discover the differentiated products of DH, a luxury residential brand in Gangnam, and we are happy to finally show the results." To help us realize the best landscape products in the future I will make more efforts. "

On the other hand, Hyundai E & C's landscaping products have been recognized for excellence in landscape design through the world's top three design competition awards, recently received the 2018 Good Design Award, the 2019 Asia Design Prize Winner, and the 2018 Korea Landscape Culture Awards. received.
