BETWEEN BALI AND BAUHAUS | Artist Talk + BBQ | Kristin Hjellegjerde Gallery | 23.05.2019

Under the title BETWEEN BALI AND BAUHAUS , the Berlin-based Kristin Hjellegjerde Gallery is inviting you to a conversation about light and colors on May 23, 2019 with the Indonesian-British artist Sinta Tantra and the journalist Kai Kupferschmidt. Afterwards there is an Indonesian BBQ. The artist Sinta Tantra is currently showing selected works in the gallery, together with works by the artist André Hemer.

How can the influence of light transform our perspectives or even objects themselves? This question unites the complex and multifaceted artistic paths of Sinta Tantra and André Hemer. For their first joint exhibition in the Kristin Hjellegjerde Gallery Berlin, the artists present different works that explore the fluctuating relationships between space, time and materiality. Under the title "Woven and Illuminated", the exhibition combines a collection of works of art that intertwine different dimensions and invite the viewer on an intimate journey into creative processes.

For Gallery Weekend 2019, Sinta Tantra has designed the wall of the gallery's backyard with a work of art. This can also be visited for the artist talk and frames the event in a special way.
